Objective

Passionate and dedicated software developer with a strong foundation in full-stack web development, currently pursuing a master's degree. Experienced in building dynamic and responsive user interfaces using React.js and Next.js. Skilled in developing robust backend services with Node.js and designing efficient APIs using GraphQL. Enthusiastic about learning and implementing Docker containerization and AWS cloud services to enhance application deployment and scalability. Adept at problem-solving and working in collaborative environments. Strong focus on user experience and performance optimization. Committed to continuous learning and staying updated with the latest industry trends and technologies. Seeking opportunities as a React JS Developer to leverage expertise in frontend development and contribute to innovative projects.
